PROGRAM GROUP LISTING

The PROGRAM GROUP identifies how APHIS spends its money at the line item level. It groups related reporting categories as one budget line item. For example, reporting categories 490, 491, and 492 are used to identify spending for the Tuberculosis program group (or line item).

Most funds either do not use reporting categories or are associated with only one program group. Other funds like Fund 52, however, uses different program groups depending on the reporting category.

The "Program Group" data element can be found in the TPGMT table in the Financial Data Warehouse. Use it in your BRIO reports to gather and report data by budget line item.

Program Group	Program Group Name
AH	ANIMAL HEALTH MONITORING SURVE
AI	AQI-APPROPRIATED
AQ	AGRICULTURAL QUARANTINE INSPEC
AU	AQUACULTURE
AV	AVIAN INFLUENZA
AW	ANIMAL WELFARE
BC	BIOCONTROL
BE	BOVINE SPONGIFORM ENCEPHALOPAT
BF	BUILDINGS AND FACILITIES
BR	BRUCELLOSIS
BT	BIOTECHNOLOGY/EADS
BW	BOLLWEEVIL
CC	CITRUS CANKER
CF	CONTINGENCY FUND
CT	CATTLE TICK
CW	CHRONIC WASTING DISEASE
EF	EMERGENCY FUNDING
